

**Every day 39,000 kids  
get sent to the hospital  
from injury alone . And...  
THEY'RE SCARED TO DEATH.**

Rob Luka can show your audience how to fearlessly face medical procedures.

*Author of...*

**A** local television and radio guest, Rob entertainingly speaks at national and state conferences. His articles have appeared in newspaper, magazine and on-line international journals.

Rob Luka, a Registered Nurse of 40 years, has worked with frightened children in all kinds of environments from emergency room, (trauma, lacerations, fractures, bone reductions, bedside surgeries, medical procedures) to drawing blood and giving shots.

He can show your audience in an easy to follow step by step fashion how to conquer and overcome the most extreme fears in themselves and their children - including phobias!

- Top Ten Techniques your audience can learn to prevent fear of doctors.
- How the Law of Expectations can be used to redirect fear into empowerment!
- Are the words you're using helping to create more fear in you and your children? Simple things you can do to conquer phobias - What you need to know to break free of them.
- How to use body postures to reduce fear without saying a word - the secrets of non-verbal communication.
